## REMARKS TO TEACHERS.

—:O:—

This Catalogue indicates the grading of your pupils for the ensuing year. Should there for good cause be any promotions in October mark the same in your register and in your catalogue report at the close of the year.

In making out your catalogue report be guided by the following directions:

First, Write the name of your school.

Second, Should there be any pupils attending your school who have graduated therefrom at any time, class them as "**Graduates.**"

Begin with the highest class you teach and arrange in their respective grades, in **single columns**, the names of all pupils enrolled for the entire school year.

Be careful to have the names correctly spelled and written in alphabetical order, the surname being placed first.

Place an **asterisk \* in red ink** after the name of each pupil regularly promote in May. **L** signifies left the school not intending to return. **Ab** signifies absent at the time of the May examination. **=** indicates promoted in October and shows that a pupil has been permitted to recite in the next higher grade on probation and has successfully passed the October examination for that grade and is therefore promoted into it. **†** means deceased. These marks and notes should be made in **red ink**. Write on only one side of the paper and number the pages. Underscore the name of school and of grades. In schools of one department sign your name as teacher. In schools of two or more departments, do not sign your catalogue report. The Principal will arrange the reports and sign as Principal and give the names of the Assistants.

The following is designed to aid you in preparing a correct report:
